# TCR Capital acquires Oberthur and Oller

## Transaction

TCR Capital has taken a 95% stake in Groupe Ouest Finance, the holding of stationery companies Oberthur and Oller, co-investing alongside Sobrepar, one of TCR's limited partners. The management team, led by CEO Christophe Rault, will hold the remaining 5% of the equity. The deal marks TCR's third investment from its €160m Fund III, which is now approximately 30% invested.

## Debt

The acquisition was financed with €80m of debt, including a senior tranche provided by CIC, CIO, LCL, Société Générale and BNP Paribas, and a mezzanine debt provided by ActoMezz.

## Company

The two companies, based in Rennes, specialise in paper and writing implements for professionals, as well as the general public. The company has more recently been focusing on licensed products aimed at school children and teenagers. Oberthur and Oller recorded a combined turnover of €35m in 2009 and have 160 employees.
